CONTENTS

Special Issue: *Proceedings of the International Congress on Fertilization, Embryo Development and Implantation, New Delhi, India, November* 2000

Sperm Antigens and their Functional Significance

Two-dimensional electrophoretic analysis of sperm antigens recognized by sperm immobilizing antibodies detected in infertile women
H. Shibahara, I. Sato, J. Shetty, S. Naaby-Hansen, J.C. Herr, E. Wakimoto, K. Koyama (Tochigi, Hyogo, Japan; Charlottesville, VA) 1

Molecular and immunological characteristics of sperm antigens involved in egg binding
R.K. Naz (Toledo, OH) 13

Transcriptional regulation of spermiogenesis: insights from the study of the gene encoding the acrosomal protein SP-10
P.P. Reddi, A.N. Shore, K.K. Acharya, J.C. Herr (VA) 25

Molecular analysis of the Y chromosome AZFc region in Japanese infertile males with spermatogenic defects
H. Sawai, S. Komori, K. Koyama (Nishinomiya-shi, Japan) 37

Reduction in the level of hyaluronan binding protein 1 (HABP1) is associated with loss of sperm motility
I. Ghosh, A. Bharadwaj, K. Datta (New Delhi, India) 45

Zona Pellucida Glycoproteins, Oolemma Proteins and their Role in Fertilization

Oolemmal proteomics
S.A. Coonrod, P.W. Wright, J.C. Herr (Charlottesville, VA) 55

Primate recombinant zona pellucida proteins expressed in *Escherichia coli* bind to spermatozoa
G.K. Gahlay, N. Srivastava, C.K. Govind, S.K. Gupta (New Delhi, India) 67

Involvement of carbohydrate molecules on zona pellucida in human fertilization
M. Maegawa, M. Kamada, S. Yamamoto, S. Yamano, M. Irahara, H. Kido, T. Aono (Tokushima, Japan) 79

Contraceptive potential of synthetic peptides of zona pellucida protein (ZPA)
A. Hasegawa, Y. Hamada, M. Shigeta, K. Koyama (Nishinomiya, Japan) 91

The contraceptive potential of ZP3 and ZP3 peptides in a primate model
M. Paterson, Z.A. Jennings, M.R. Wilson, R.J. Aitken (Edinburgh, UK) 99

Molecular and Biomolecular Events During Sperm Function

Role of seminal plasma phospholipid-binding proteins in sperm membrane lipid modification that occurs during capacitation
P. Manjunath, I. Thérien (Montreal, Canada) 109

Signal transduction pathways in human spermatozoa
E. Baldi, M. Luconi, L. Bonaccorsi, G. Forti (Florence, Italy) 121

Novel signaling pathways involved in sperm acquisition of fertilizing capacity
P.E. Visconti, V.A. Westbrook, O. Chertihin, I. Demarco, S. Sleight, A.B. Diekman (Charlottesville, VA) 133

Role and regulation of intracellular calcium in acrosomal exocytosis
H. Breitbart (Ramat Gan, Israel) 151

Signaling through protein kinases during egg activation
E. Eliyahu, A. Talmor-Cohen, R. Shalgi (Tel-Aviv, Israel) 161

Events During Fertilization, Post Fertilization and Early Embryonic Development
Oocyte-specific genes regulate follicle formation, fertility and early mouse development
J. Dean (Bethesda, MD) 171
Interactions between zona pellucida glycoproteins and sperm proacrosin/acrosin during fertilization
L. Howes, R. Jones (Cambridge, UK) 181
Gene expression profiling of human GV oocytes: an analysis of a profile obtained by serial analysis of gene expression (SAGE)
J.L. Stanton, M. Bascand, L. Fisher, M. Quinn, A. Macgregor, D.P.L. Green (Dunedin, New Zealand) 193
Regulation of peri-attachment embryo development in the golden hamster: role of growth factors
P.B. Seshagiri, A. Mishra, G. Ramesh, R.P. Rao (Bangalore, India) 203

Endometrium Antigens Involved in Implantation
Newly identified endometrial genes of importance for implantation
L.A. Salamonsen, G. Nie, J.K. Findlay (Clayton, Australia) 215
Blastocyst–endometrium interaction at implantation in the rhesus monkey
J. Sengupta, D. Ghosh (New Delhi, India) 227

Immunobiology of Pregnancy
A brief review of recent data on some cytokine expressions at the materno-foetal interface which might challenge the classical Th1/Th2 dichotomy
G. Chaouat, S. Zourbas, S. Ostojic, G. Lappree-Delage, S. Dubanchet, N. Ledee, J. Martal (Clamart, Jouy en Josas, France) 241
Network of cytokines, integrins and hormones in human trophoblast cells
C. Das, V.S. Kumar, S. Gupta, S. Kumar (New Delhi, India) 257
Autoantibodies to contact proteins in patients with recurrent pregnancy losses
T. Sugi, T. Makino (Kanagawa, Japan) 269
Interest in preeclampsia for researchers in reproduction
P.-Y. Robillard (Saint-Pierre, France) 279
Human malignant cell death by apoptosis-inducing nucleosides from the decidua derived $CD57^+$ HLA-DR^{bright} natural suppressor cell line
T. Mori, M. Guo, X. Li, E. Mori (Tokyo, Japan) 289
